Safari Camp	Kantunta Safari Lodge, Namwala GMA
Safari Profile	Hippo, Croc and plains game
Hunters	Enrique De Leyva (Snr), Enrique De Leyva (Jnr)
Professional Hunter	Davon Goldstone
Game Shot	Hippopotamus, Crocodile, Kudu, Puku, Impala, Warthog and Bushbuck

Overall I must say that we enjoyed enormously our hunt in Namwala, and that I found it of high quality in a number of aspects and hence highly recommendable. The key aspects of it are commented below.

Hunting Area. Very unique hunting area around the Kafue River. Multiple water streams, surrounded by green shores, even in the dry season, when we were there. Truly beautiful and very different from anything else I have seen in Africa.

Further away from the water, into the plains game area, more comparable to other locations in Africa but marked by high density of trees and hilly landscape, which made it far more interesting than the more classical flat savanna.

Game description. Water game (hypo and croc) was abundant and of very high quality. Plains game was more episodic given extension of the concession. A good quality trophy requires time and hunt, which is absolutely fine for me, but it is not the "shopping mall" some hunters look for. We managed to see leopard, lion, sable (good quality) and buffalo, beyond many species of plains game.

Lodge. We stayed only in the main lodge. Very good quality. All facilities working properly. High quality food and, above all, excellent atmosphere and service. You felt pretty much at home.

Staff. Management and hunting staff were kind and professional. Concession owner took intense day-to-day interest in ensuring that hunting and lodge experience was of top quality. He knows the concession extremely well and is able to ensure a high success rate

in terms of desired hunting experiences. In our case, to 100% satisfaction vis a vis our objectives.

Overall. I highly recommended this place and management as a differential hunting experience in Africa. I enjoyed it enormously.

Signed:

Enrique de Leyva
